

Attention

Visitor Policy

Due to the increasing COVID-19 positivity rate in our region, we have adjusted our visitation policy.

Effective Wednesday, January 5, 2022, all inpatient adults at SIH hospitals may have one designated visitor for the day between the hours of 8am – 8pm. The designated visitor may change from day to day. The visitation policy remains the same for all other areas at this time.

All visitors will be required to wear approved procedure/ surgical masks (masks are provided). Cloth / homemade masks are not allowed.

Visitor Guidelines

Please follow these guidelines for our patients and staff.

- » One designated visitor per patient per day.
- » Procedure / Surgical masks are the only approved mask when at an SIH location, (masks should be available at signage locations).
- » Visitors must remain in the patient's room for duration of the visit.
- » Visitors must be 18 years of age or older.

Thank you for helping us care for you and our community.
